Objective

To obtain a position working with web technologies that leverages my skills, experience, and accomplishments as a developer.

Summary of Qualifications

- Able to work independently, recognizing patterns/problems and developing and implementing solutions while also being able to collaborate with a team, managing and delegating tasks appropriately and efficiently.
- Experience as a developer, and a hard-working student has resulted in exceptional problem-solving skills, critical thinking skills, and patience.
- Implement eye-pleasing designs that make the user experience better.

Technical Profile

Programming Languages:

HTML5, JavaScript, TypeScript, Node.js, CSS, Python, SMLnj, Racket, Ruby

Frameworks / Libraries:

React, Express.js, Bootstrap, TailwindCSS, mongoose

Software / Tools:

Git, MongoDB, Regular Expressions, VScode, Vim

Projects

[Jobs Finder](#)

- A React application that uses an external API (remotive.io) to fetch data and lays it out in a user-friendly format. GitHub repo [here](#)

[Markdown Notes app](#)

- Markdown Notes lets you write notes in markdown format and save it to your local storage. It has filtering, full routing, deleting, updating, and categories. GitHub repo [here](#)

[Blog backend](#)

- An Express app that supports basic CRUD operations and user authentication. GitHub repo [here](#)

Education

- Bachelor of Computer Science, Kafr El-sheikh university (2023-2026)
